

# CRACK SHOTS FOR DUPONT TROPHY

Gathered From All Parts of the United States.

## CONTEST FOR A FAT PURSE

THE WORLD'S CHAMPIONSHIP THROWN IN.

Fire at a Selected Stock of Blue Rocks, Which Were Excessively Hard to Hit, Owing to Savage Atmospheric Conditions—Captain Brewer the Favorite.

BALTIMORE, Oct. 24.—Sportsmen and crack shots from all parts of the country began this morning to shoot for the Dupont trophy, a fat purse and the world's championship. At the opening of the match, which began at 10 o'clock, there were 31 entries at \$25 each, making the total money \$775 to be divided, 40 per cent to the winner, 30 per cent to second, 20 per cent to third, and 10 per cent to fourth. The hundred hand-picked committee has fixed the distances at 23 yards for Captain Jack Brewer, who is the favorite, and 25 yards for the other competitors. Each man will shoot at 25 birds and no division of first money will be allowed, all ties being required to be shot off.

Darkness stopped the match, after each of the competitors had shot at 15 birds. It will be finished tomorrow. Twelve of the shooters have killed straight birds this far, and the match promises to be worthy of the big stakes the men are contending for.

The birds were a well selected and unusually

Strong Lot of Blue Rocks

and the atmospheric conditions are precisely right to make them hard to hit. Captain Brewer, who is the favorite in the betting, shot his magnificent form and luck was clearly with him, for one of his birds fell nearly out of bounds, but was returned before the referee got their eyes on it. Fullerton on the other hand, missed three, and is considered out of it for first or second money.

Yale Dolan of Philadelphia, who is shooting under the name of "Ashbrook," got but nine out of the 25, but Mr. Allister, his fellow citizen, who shoots as "Hayward," has killed eleven straight. All the shooting, except the cup, is being done at the center set of traps, but side shows in the form of sweepstakes are being held at the same time.

Messrs. H. A. Penrose and E. Hall are refereeing the match.

## GOVERNOR MILLARD DYING.

Comatose and Then Delirious—Rapidly Sinking.

LOS ANGELES, Cal., Oct. 24.—At 7 o'clock tonight Lieutenant Governor Millard became unconscious. He remained in a comatose state for half an hour, then became delirious and feebly gave utterance to some incoherent phrases. Mrs. Millard has been sent for and it is thought that she will arrive here in the morning.

Spencer Gordon Millard was born in Ionia county, Michigan, in 1836. He graduated from the Michigan college in 1857 and became principal of the Carson City, Mich., graded school. In the meantime he studied law and in 1862 became a partner with William O. Webster, an attorney at Ionia City. In 1887 he came to California, settling in Los Angeles and practicing law. He took very little part in politics up to the time of his nomination for lieutenant governor in 1894, but was a brilliant orator and was extremely popular in the southern part of the state. After his nomination on the Republican ticket he made a vigorous canvass of the state. He spoke sixty consecutive nights and covered the entire state. When his election was announced Mr. Millard was in good health but just before the assembling of the legislature in January he was attacked by grip, which developed into pneumonia. He was unable to attend the legislature and as he could not shake off the disease he was visited by father last June in Michigan. The change did him no good and in September he returned to California, spending the winter until last Sunday in the mountains. It was seen his case was hopeless and on Sunday he was taken to Los Angeles in a special car. Mr. Millard was married at Ionia City to Miss Ida Hall, and leaves two children, a boy and girl.

Died at Midnight.

LOS ANGELES, Oct. 24.—11:35 p. m.—Lieutenant Governor Millard just died.

LARAMIE, Wyo., Oct. 24.—A ranchman at La Porte, Colo., near Fort Collins, was in Laramie today and stated that Brown, the man who struck James Watt, a fellow employee, both Union Pacific wheel tappers, on the head with a hammer, had stopped at his ranch on the day after the trouble and got a meal. The ranchman noticed the workman's clothes on Brown and questioned him. Brown telling him frankly the story. After getting the meal it is supposed he took the train for Denver and has not been heard from since.

## THOSE UNHAPPY FILIBUSTERS.

WASHINGTON, Oct. 24.—It has been due to the activity of Minister Dupuy de Lome, the Spanish representative in Washington, that the large band of filibusters, who have been harassing the United States, have been apprehended in one of the Bahama Islands. News of the capture reached here before it has been confirmed by official advice. Since the acquittal at Wilmington, Del., of the Bahama, the minister has been receiving reports of their movements, but took no steps toward their apprehension.

## MISSIONARY SOCIETY.

JUBILEE ANNIVERSARY AT BOSTON YESTERDAY.

Act of the Florida Legislature on the Color Line in Schools Roundly Scored by Miss Loveland—Woman's Work.

DETROIT, Oct. 24.—The jubilee anniversary of the American Missionary society will be held in Boston in October, 1896. This was decided during today's session of the society.

An act passed by the Florida legislature prohibiting instruction of white and colored students by the same teachers and in the same buildings, which has been repeatedly criticized during the convention, was strongly scored today by Miss Helen S. Loveland of the school at Orange Park, Fla., against which institution the law had been directed. She stated that it had been intended to open the new school at Orange Park, October 2, but that it could not be attempted under the law.

The annual election of officers resulted as follows: President, Merrill E. Gates, Massachusetts; vice-president, Rev. F. A. Noble, Illinois; Rev. Alex. McKim, Massachusetts; Rev. Henry Hopkins, Missouri; Rev. Henry Silson, New York; Rev. Washington Gladden, Ohio; honorary secretary, Rev. M. E. Stribley, corresponding secretary, A. P. Beard, Rev. F. P. Woodbury, Rev. C. J. Byder, recording secretary, Rev. M. E. Stribley; treasurer, Henry W. Hubbard; auditors, George A. Hickok, William H. Nichols, Executive committee for three years, M. Holmes, Samuel Ritchies, Charles Meade, William H. Strong, Elijah Hook.

The association adopted a strong resolution condemning lynchings.

## Women's Work Discussed.

Women's work was the principle topic in the afternoon session, which was presided over by Miss D. E. Emerson of New York, secretary of the woman's bureau. A contribution of \$25,338 was her record of last year's financial assistance and nearly 500 barrels of supplies were sent to needy districts.

President J. B. Angell of the Michigan university, gave the opening address at the evening session. He devoted most of his time to a discussion of missionary work in its relation to the Chinese, with which his former services as United States minister to China gave him special familiarity. Dr. Angell expressed the confidence that by persistent effort the Christian religion might yet gain a foothold in China.

General Oliver O. Howard spoke on the general missionary work of the society, giving an eloquent address detailing his experience with the freedmen and Indians and pleading for a wider extension of missionary labor.

President Gates made the closing address after which the convention adjourned sine die.

## DOG IN THE MANGER.

Dunraven Will Not Sall Nor Admit Another to Sall.

LONDON, Oct. 24.—The Pall Mall Gazette, commenting this afternoon on the action of Mr. Rose in withdrawing his challenge for the America's cup, remarks: "Mr. Rose has done right in withdrawing. Had he won the cup it would forever have lost the international significance which now attaches to it. If the cup is to retain its significance, the rivalry of English yachtsmen it must be called for, as Lord Dunraven demands, over an unobstructed course, and Lord Dunraven has unquestionably the right to a match under such conditions."

The Globe this afternoon says: "There is little likelihood of another British challenger entering the lists for the America's cup. Lord Dunraven certainly will not do so until a course is provided where the competitors will have fair play."

## IRON MARKET STRONG.

NEW YORK, Oct. 24.—The Iron Age says: The principal event of the last week has been the recovery in Bessemer pig in the central west on moderate purchases by consumers. The advance is represented by the contract between \$14.25 in the valleys last week and \$15.10 there now. The movement proves how sensitive the market is and that the position of the furnaces is strong.

Billets have not followed suit, but the conclusion seems warranted that the strength revealed in Bessemer pig must find an echo in billets.

The reports of our correspondents concerning the volume of business done in cars are somewhat conflicting. It is certain, however, that a number of orders of some consequence have been placed and that others are pending.

Generally speaking, few orders of magnitude are coming up in finished iron and steel.

## NEW BRUNSWICK SMUGGLERS.

ST. JOHNS, N. F., Oct. 24.—A death blow was given the smuggling cases by the defense raising a legal objection, claiming that the law does not cover the cases as arranged, and procuring a writ of prohibition from the supreme court, restraining the magistrate from continuing the cases until the issue is argued before that body. This struck the town lawyers like a bombshell. They are greatly chagrined. The argument takes place Saturday.

The trouble in the government continues. Members are denouncing each other. The speaker, Hon. E. A. Tupper, new office has been created contrary to

## PERALTA CLAIMS REJECTED.

FINAL DECISION BY THE COURT OF PRIVATE LAND CLAIMS.

Court Holds That Baron Peralta Never Existed, and That the Papers of the Grant Are Forgeries.

SANTA FE, N. M., Oct. 24.—The court of private land claims adjourned today till March. A formal decision finally rejecting the Peralta land grant in southern New Mexico and Arizona, claiming about 12,000,000 acres, worth at least \$25,000,000, was handed down by Chief Justice Reed. The decision was concurred in by the other four judges. The court holds that no alleged claimant, Miguel de Peralta, baron of the Colorado existed, and that the grant papers are forgeries. This conclusion is reached after careful researches by special agents and members of the court in the archives of Spain and Mexico.

Reavis, who is now in jail here on a charge of representing a fraudulent claim against the government, says he will appeal the case to the United States Supreme Court.

Christ, a mail clerk from Kansas City, are reported seriously injured. Neither will live, however. Both are suffering from body bruises and lacerations of the face and scalp.

## PAGE COURT MARTIAL.

CHICAGO, Oct. 24.—There was little of interest in the court martial trial of Lieutenant Page at Fort Sheridan today. But two witnesses were examined and they were surgeons connected with the fort. Both testified to the condition of the lieutenant on the day he attempted to take the life of Colonel Crofton and they agreed that on that occasion he was mentally irresponsible. As both of these witnesses were called by the defense it at once became evident that this would be the line on which it was intended to secure the acquittal of the accused. The far none of the sensational testimony promised at the beginning of the trial has materialized and it is not believed that any will be brought.

## DUNRAVEN'S KICK.

Reviewed by the New York Yacht Club.

NEW YORK, Oct. 24.—The last general meeting of the New York Yacht club for the year 1895 was held tonight. The cup committee submitted its report, all of which, with the exception of the motion regarding Dunraven's protest regarding the measurements, has already been reviewed by the club.

"On Saturday, Sept. 7, Lord Dunraven communicated to the cup committee his belief that the measurements of the day's race were three or four inches more than when she was measured. Lord Dunraven stated that he had been the change and been made without the knowledge of the club's owners, but it must be corrected or he would discontinue racing."

The cup committee ordered a measurement. On Sept. 8, the yachts were marked as required by Lord Dunraven. At the same time they were removed with the result of only one-eighth of an inch in low water mark increase of Dunraven and one-sixteenth of an inch in Valkyrie. As the result varied the time allowance only a second or two, and in no way affected the result of the race it is not deemed necessary to give additional measurements."

The following resolution was adopted: That a cup be presented to the owner of Dunraven in recognition of their usual defense of the America cup in the recent match and that a cup be also presented to George J. Gould as an expression of the club's appreciation of his generous and spontaneous action in putting the Vigilant in commission and placing her at the disposal of the club.
